

DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest either in singularly or in combination the following limitations and other elements in the claims:

References Jun et al. (Jun) USPAT 6,040,882 and Yamazaki et al., (Yamazaki) USPAT 6,417,896 and Matsumoto; (Matsumoto) US 2002/0176030 does not anticipate or renders obvious the claimed invention:

- A device having a transmissive electrode that is electrically connected to the second switching device, the transmissive electrode being formed in the first region; a reflective electrode that is electrically insulated from the transmissive electrode, the reflective electrode being formed in the second region that is adjacent to the first region; and a compensating wiring that is electrically connected to the first switching device, the same compensating wiring facing the reflective electrode and the transmissive electrode with an insulation layer interposed between the compensating wiring and the reflective electrode and between the compensating wiring and the transmissive electrode.

Therefore, the prior art of record neither anticipates nor renders obvious the claimed invention of the present application and claims 4-10 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
